

# IPAET794

## Water Tank & Pump

### Technical Specifications

| Model                     | IPAET794 (TP-100)                       |
|---------------------------|---|
| Construction              | Polyethylene tank, stainless steel cage |
| Dimensions                | 405.5 x 194 x 267 (mm)                  |
| Water Tank Capacity       | 10L                                     |
| Delivery Head             | 4.5m                                    |
| Tube Length               | 4.5m                                    |
| Input Power               | 24VAC/DC                                |
| 20% Low Water Level Alarm | Support                                 |
| Weight                    | 2.75 KG                                 |
| Connectors                | M12x4                                   |
| Operating Temperature     | 0 °C ~ 60 °C                            |
| Mount Type                | Wall Mount / Pole Mount                 |
| Supported Models          | Camera Housing: P20/P60 Series          |
